FEATURES OF QASTO KITCHEN SINK

SCRATCH PROOF (Scratch Resistant)

Our QASTO Kitchen sinks have a durable hard surface, resisting scratches and dents from regular use.

HEAT RESISTANT

The properties of QASTO material make these sinks heat resistant up to 280° C.

FULL BODY NON POROUS MATERIAL

The whole body structure is non porous , making it impossible for liquids of any density to flow in the body.

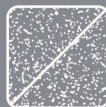

STAIN FREE

As no liquids can enter in the body, the stain free property is an obvious byproduct.

EASY TO CLEAN

The surfaces of our sinks are easy to clean and maintain, Just Spray soap + water and wipe off the surface.

NOISE LESS

No clunking and banging noises when utensils are worked on in our sinks. The material is granite type negating undue noises.

ANTI BACTERIAL (Bacteria Resistant)

Where there is food, there is bacteria. Our sinks' material makes sure none of the bacteria stay on surface. They are easily washed away.

HYGIENIC

The material, is totally hygienic keeping the area clean and healthy.

HIGH CALIBER DURABILITY

Created with scientific ally advanced German technology, the QASTO sink has high level of durability.

INTERNATIONAL STANDARD QUALITY

Our material, engineering and production processes make these sinks meet global standards of performance.
